

Ø 200 / Ø 300 MM | 230 / 42 VAC | 8 W | >400 CD

Saving energy while improving traffic safety

LED OPTICAL UNIT

Features:

- Linear driver based on current regulator
- Construction based on certified norm: **EN 12368**
- PWM Dimmable LED technology
- Low power consumption
- Perfect visibility
- Very good tightness
- High vibrations and impacts resistance
- Temperature fluctuation resistance
- Lightweight construction
- Very easy installation
- Additional masks for different symbols
